

Australian made solar panels and inverters

Are solar panels made in Australia?

They certainly are. Because our solar panel systems are Australian-made, we have complete control over the manufacturing process. Before leaving the factory, every solar panel passes over 25 quality control checkpoints, so you know you're getting quality products. Our materials, such as glass, film and junction boxes, are stress-tested separately.

Are Tindo solar panels made in Australia?

Tindo's Australian-made solar panels are made for and tested in harsh Australian conditions. Here are a few reasons to choose Tindo for your 6.6kW solar panels: We develop our solar panels tough because we understand Australian conditions.
