Just bought a Bluetti AC200 for my small camper. Now I'm shopping for 1 or 2 rigid solar panels to go with it. My Plan was to get one 200W Rich Solar panel, see how that goes, and potentially add a second one. But what I guess I'm understanding from other posts (I'm new to this), the VOC would be too low for the Bluetti, so I would need to have a second panel ...

Application Model: B230/B300/EB150/EB240, AC200/P/Max Function: * Enable more charging methods like solar, car, and lead-acid battery charging. * 500W Max input. * Increase the PV input rate to 1200W for the BLUETTI AC200/AC200P; 1400W for the BLUETTI AC200Max.

Customers say the Bluetti AC200MAX power station and solar panel combo is a highly versatile and reliable solution for both emergency power needs and outdoor activities. Users appreciate its expandable capacity, multiple charging options, and ease of use, making it suitable for various applications, from camping to home backup.

With a Voc range of 10-145V, you'll get a max input power of 900W with one solar panel array. That'll charge the unit in about 3 hours. If you have access to AC, pair it with solar for a theoretical total max of 1400W of input power, charging the AC200MAX in a snappy 2 hours. Of course, solar power charge rates assume ideal sun conditions.

?High Conversion Efficiency?:BLUETTI SP200 is a 200-watt monocrystalline solar panel with high conversion efficiency, up to 23.5%, which is much higher than the typical solar panel generator/charger. With excellent 95% transparency, the BLUETTI SP200 performs better than similarly-rated polycrystalline solar panels in low-light conditions, and much higher than the ...
