

California pace program solar energy

Is pace a free government program?

PACE is NOT a free government program. Homeowners must pay for a PACE contract through increased assessments in their annual property tax bills. As such, PACE assessments can also make it more difficult to sell or refinance a property because a lien is placed on your home until the PACE contract is paid off.

Is California a good place to go solar?

When it comes to going green, especially utilizing solar energy, California leads the nation. Our solar industry is booming. It's never been easier or more affordable to go solar. If you're considering installing a residential solar energy system, there's important information you need to consider so you can be "Solar Smart."

Where can I find information about solar energy in California?

Power your home with solar. Check out the California Solar Consumer Protection Guide for the latest solar energy information & installation requirements. The California Public Utilities Commission (CPUC) presents the California Solar Consumer Protection Guide.

What is a pace contract?

PACE contracts are signed financing agreements that are difficult to void. One of the local PACE consumer advocacy groups listed above may be able to help. To avoid becoming delinquent, please refer to your local county tax assessor for more information.

Can a pace contract increase property taxes?

Property taxes can increase substantially with the added cost of a PACE contract. Homeowners who cannot afford the increased property taxes from a PACE contract could lose their homes through a foreclosure action. Electronic PACE contracts, while legal, can sometimes limit the view of the entire contract.
