Stay hydrated - with all this sun you"ll need a lot of water. Even the water won"t be refreshing your body - it"s like stepping in a very hot bath. The last thing you want is to have water in your eyes or your mouth - avoid splashes, avoid jumping in the water and more importantly, do not dive in the water.

Any kind of topical cream that can moisturize and soothe your irritation is going to be an excellent option to help you heal your sunburn. Stay Hydrated. When your skin is damaged by the sun in the form of a sunburn, moisture is drawn to that area. A sunburn draws fluid to the skin's surface and away from other areas of the body that need it.
