Who are Ballard Power Systems competitors?

The main competitors of Ballard Power Systems include Thermon Group (THR), PROS (PRO), Methode Electronics (MEI), Digi International (DGII), United States Cellular (USM), Donnelley Financial Solutions (DFIN), SMART Global (SGH), CTS (CTS), Model N (MODN), and Cerence (CRNC). These companies are all part of the "computer and technology" sector.

Are Ballard Power & Plug Power the same company?

Though the primary markets look different, there is a lot of overlap in Plug Power's and Ballard Power's markets. Ballard Power also supplies fuel cells for material handling applications, and Plug Power is its key customer in this segment. Both companies target the stationary back-up power segment.

Why choose Ballard Power Systems?

Ballard Power Systems' proprietary fuel cell technology is enabling automobile, electrical equipment and portable power product manufacturers to develop and sell competitive environmentally clean and efficient products.

Who is Ballard Power Systems Inc?

Ballard Power Systems Inc is a world leader in proton-exchange membrane fuel cells, power system development, and commercialization.

Should institutional investors buy Ballard Power Systems?

Institutional investors commonly compare their own returns to the returns of a commonly followed index. So they generally do consider buying larger companies that are included in the relevant benchmark index. As you can see, institutional investors have a fair amount of stake in Ballard Power Systems.

Should you buy plug power & Ballard Power Stocks?

Fuel cells are getting much interest in certain markets such as China, Europe, South Korea, and Japan. Still, limited fuel cell adoption, dismal financial performance, risks, and competition make Plug Power and Ballard Power stocks' valuations look stretched.
