

Who makes Danfoss solar inverters?

Danfoss, founded in 1993, is a solar inverter manufacturer based in Hasselager. On this page, you can find a complete list of solar inverters from Danfoss and compare models side-by-side. Quick facts about Danfoss solar inverters in the EnergySage Buyer's Guide: Are Danfoss solar inverters best for you?

What does Danfoss do?

As a technology leader in power conversion, Danfoss enables the world's leading solar inverter and wind turbine manufacturers to deliver solutions that are designed to meet stringent efficiency, reliability and cost targets and ultimately lower the cost of renewable energy.

Who is Danfoss?

Danfoss is a world-leading independent manufacturer of customized IGBT and metal-oxide semiconductor field effect transistor (MOSFET) power modules supplying some of the world's most innovative and successful solar inverter manufacturers. There are no assets to display. Coming soon... Coming soon...

How much does a solar inverter cost?

For an average-sized installation, inverters typically range between \$1000 and \$1500. That cost can go up quickly though as the installation gets bigger. Each year, the National Renewable Energy Lab performs a cost benchmark of the solar industry, looking at average installation costs, inverter and panel costs, and a host of other related topics.

Who is Danfoss Silicon Power?

Danfoss Silicon Power is a globally active manufacturer of customized IGBT power modules, MOSFET power modules, SiC modules and power stacks. We promise that each product is individually designed to meet your exact requirements.

Are inverters cheap?

At around 6% of an installation's total cost, inverters aren't cheap so you need to make sure you're getting a good product before moving forward. And when you are talking with installers and receiving estimates, do some quick math to make sure all the costs add up.

Danfoss is a global company with an 80 year history as a solid, responsible family owned company. Danfoss Solar Inverters develops and manufactures a comprehensive range of grid-connected photovoltaic inverters for all PV applications, checked by some of the most extensive inverter testing facilities in the industry. The FLX series is the result of the Danfoss" ...
