

Ganfeng lithium invests in energy storage

How much will China's ganfeng lithium invest in battery production?

China's Ganfeng Lithium to invest \$1.3 bln in battery production. Ganfeng Lithium, the world's biggest lithium company by market capitalisation, said on Thursday its subsidiary would invest a total 8.4 billion yuan (\$1.3 billion) in two projects that will make "new-type" lithium batteries.

What will ganfeng lithium do in the future?

As the carrier of Ganfeng Lithium's lithium battery business, in the future, Ganfeng Lithium will continue to increase investment in technology, management, quality and other dimensions, taking "leading a new era of lithium battery technology innovation" as its corporate mission and contributing to the development of mankind.

Why did ganfeng invest in lithium?

"Ganfeng foresaw the mineral shortage and started investing aggressively many years ago," says Susan Zou, battery materials analyst at research company Rystad Energy. When lithium prices slumped in 2019, the company kept investing, said John Kanellitsas, executive vice-chair of Lithium Americas, of which Ganfeng owns 20 per cent.

Who is ganfeng lithium battery?

Ganfeng Lithium Battery builds a high-end polymer lithium battery R&D and production base in Huizhou, Guangdong, and develops high-end polymer lithium battery R&D and production, in order to increase the company's high-end polymer lithium battery production scale and market share, and enhance its core competitiveness.

What is ganfeng's lithium plan?

A look at Ganfeng's global lithium assets. Ganfeng intends to grow their lithium production capacity to a massive 600,000 tpa LCE. That would be almost double the total lithium produced globally in 2019. Ganfeng plans to invest US\$1.3b in two projects that will make "new-type" lithium batteries in China totaling 15GWh, starting in 2023/24.

Who makes ganfeng lithium?

China's Ganfeng is best known as a supplier of battery-grade lithium to clients including electric vehicle (EV) maker Tesla, but also makes batteries and last week secured 973.1 million yuan of investment in battery unit Ganfeng LiEnergy, including from electronics giant Xiaomi.

Most recently, Citigroup research analysts have identified a promising investing opportunity in Ganfeng Lithium stocks, which has been hit hard by the recent downturn in lithium prices, a key ...

Ganfeng lithium invests in energy storage

Ganfeng, apart from being a supplier of lithium compounds and metal products, is developing power batteries as well. The company is reported to have commenced the mass production of its first-generation solid-state battery with an energy density of 260 Wh/kg last year, in a dedicated production line with an annual capacity of 4 GWh in China.

It offers battery-grade lithium hydroxide, battery grade lithium carbonate, cesium and rubidium compounds, lithium chloride, butyl lithium, lithium fluoride, and other lithium compounds; lithium metals in the form of ingots, foils, rods, particles, and alloy powder; polymer lithium battery; and lithium-ion motive power, energy storage, and ...

Mineral Resources also owns half of the Mt. Marion lithium operation in Western Australia along with China-based Ganfeng Lithium Group Co. Ltd. (OTC: GNENF), one of the largest lithium mining ...

Lithium demand from producers of power batteries, energy storage and others will keep growing amid "an irreversible trend" of global energy transition, Ganfeng Lithium ...

Ganfeng is using its own energy storage equipment to produce solar and wind power thus replacing non-renewable fossil fuels with renewable clean energy. From electric vehicles, aircraft casings, tires and 5G mobile phones, to wireless sound devices and lipid-lowering medicines, lithium resources are being increasingly integrated into daily life ...
