What is the \$7 billion solar for all program?

Oops,something went wrong. Check your browser's developer console for more details. Under the \$7 billion Solar for All program,the 60 grant recipients will create new or expand existing low-income solar programs,which will enable over 900,000 households in low-income and disadvantaged communities to benefit from distributed solar energy.

Who will receive a \$7 billion solar grant?

Washington - Today, April 22, as the Biden-Harris Administration celebrates Earth Day, the U.S. Environmental Protection Agency announced 60 selectees that will receive \$7 billion in grant awards through the Solar for All grant competition to deliver residential solar projects to over 900,000 households nationwide.

Will low-income households get affordable solar energy?

SIMON: Nothing. SALAS: (Speaking Spanish). SIMON: Soon, more low-income households like his will get affordable solar energy. A new Environmental Protection Agency program is giving \$7 billion to programs that fund rooftop solar panels, batteries to store solar energy and something called community solar.

Could solar for all help reduce utility bills?

Customers typically receive monthly credits for the share of solar they help "produce," which reduces their utility bills. Research suggests the Solar for All program could have an impact far beyond the projected 900,000 plus households, says Sanya Carley, professor of energy policy at the University of Pennsylvania.

How much will solar energy save a community?

This \$7 billion investment will generate over \$350 million in annual savings on electric bills for overburdened households. The program will reduce 30 million metric tons of carbon dioxide equivalent emissions cumulatively, from over four gigawatts of solar energy capacity unlocked for low-income communities over five years.

How does solar for all help low-income and disadvantaged communities?

Residential solar cuts home energy bills and provides families with resilient and secure power, and Solar for All will help low-income and disadvantaged communities experience these meaningful benefits, such as guaranteeing a minimum 20% total electricity bill savings for households benefiting from the program.
