Find a company that stands by their work, both in the form of a warranty and in terms of repair. A company that will install but won't even help you figure out how to repair your panels is not a company you want to work with. The same goes for any company that won't offer a warranty and won't stand by the work that they have completed.

Lighthouse Solar claims to be the oldest continually running solar company in Austin if you're in that area. I really think you should pick a company that's close by. Solar is low maintenance but not maintenance free. Over the course of 25 years you'll likely need at least one service done and it's so much easier when they're less than hour away.

The selection of a reputable company for the design and installation of your solar energy system can have a substantial impact on its overall performance and efficiency. Icon Power, being a top-tier solar installation company, provides a comprehensive range of solar services for both residential and commercial properties.

Have any companies installed solar in houston
