Are there free solar panels on YouTube?

The top results after searching "free solar panels" on YouTube. Top: An ad for a "free government solar program" likely designed to collect personal information or sell solar leases. Bottom: A local news report on GRID Alternatives, a non-profit that provides no-cost solar installations for qualifying low-income households.

Are free solar panels worth it?

"Free" solar panels will save you money because energy from solar power is usually less expensive than energy from the electrical grid. Keep in mind, however, that these savings from solar energy are possible regardless of if your solar panels are leased versus purchased. The long-term cost savings help you determine if solar panels are worth it.

No, solar panels are not free and advertisers using the prospect of free solar panels are typically offering a solar lease or power purchase agreement (PPA). In these arrangements, a company installs solar panels on your house for no upfront cost and charges you a monthly rate for the power they generate.

Power Purchase Agreement (PPA) The most common path to "free" solar is a PPA directly between you and a state-licensed solar energy company. Under a "PPA", the solar company

How to get solar panels free

absorbs the full solar panel cost of equipment and installation for you. The solar company is technically the owner of the equipment, however, they are responsible for ...

Under these solar financing agreements, a solar company installs solar panels on your home for no money down (hence, the misleading use of the word "free"), and you then either pay a monthly rate for the clean energy those panels produce, or you pay to rent the panels rather than paying for the energy they generate. Think about it as ...
