

Who manufactures electrochemical storage systems?

SAET manufactures electrochemical storage systems, both stand alone and associated with other plants. SAET acts as the EPC Contractor for the supply of turnkey systems.

What is energy storage?

ECONOMIC Behind a simple and elegant design the storage systems "all in one" Energy Storage hide a cutting-edge technology: they are able to accumulate energy instantly during the day and return it automatically with great efficiency by day, evening, night or when needed, thanks to lithium or accumulator batteries.

What are Italy's energy goals?

Italy's ambitious energy goals, outlined in the National Integrated Energy and Climate Plan (PNIEC), mark a transformative shift toward renewable energy. By 2030, the country is targeting 28GW of wind power and nearly 80GW of solar capacity, making energy storage essential for ensuring grid stability and maximizing renewable integration.
