KACO new energy hybrid inverter. KACO new energy supplies high-quality inverters for independent and decentralised energy supply. With the blueplanet hybrid 6.0 NH3 - 12.0 NH3, KACO is launching a new series in an unmistakable black design paired with numerous features and smart meters and current transformers already included in the scope of delivery.

The hybrid fuel saving solution that KACO new energy is promoting includes a combination of blueplanet solar PV Inverters with proven third-party hybrid controllers (see appendix). These components are meant to make sure that as much solar energy as possible is used and that the genset is kept in its optimum working range.

The blueplanet hybrid NH3 are unique: Their new design is unmistakable and the possibilities incomparable. The four hybrid inverters offer outputs between 6 and 12 kilowatts for small battery storage systems in homes and businesses. They are designed for both emergency power and black start - for the highest level of reliable solar power supply.

25th company anniversary, KACO new energy Top Brand PV in the inverter category in Germany for the 4th time in a row, Modernization of residential product line completed with hybrid inverters for solar+storage systems, Siemens and KACO new energy develop monitoring cloud for maximum data security

For many years, the String Sizing Tool has been the faithful companion of PV planners when selecting the right inverter from the KACO new energy product range. You select the inverter and, based on a clear structure and a few targeted queries, you receive a design with the possible solar modules in the shortest possible time.

Kaco blueplanet hybrid 10.0 NH3 M3 Hybrid Inverter Smart meter and current transformer are already included in delivery. The hybrid inverters from Kaco, with their power classes ranging from 6 to 12 kilowatts, offer an ideal solution for small battery storage systems in ...

KACO solar photovoltaic inverters are suitable for small and large photovoltaic systems and feature extensive standard equipment. ... KACO simplifies energy storage in homes or small businesses with hybrid inverters. For large commercial or industrial energy storage systems, select the flexible inverter from our range. ...

The blueplanet hybrid 10.0 TL3 is solar PV inverter, battery inverter and island inverter in one and meets all conceivable requirements for your solar-powered energy storage system: Feed-in of the solar power into the grid. Battery charging with surplus solar power; Increase of self-consumption day and night due to battery discharge

The SH-RS inverters have a wide MPPT voltage operating range from 40V to 560V, while the more powerful 8 & 10KW units offer an impressive 4 MPPTs, enabling greater flexibility when designing solar arrays. The inverters are also equipped with advanced diagnostic tools, such as an IV curve scan, to identify faults or degradation issues in solar panels.
