Is 1.5 volts the same as a lithium battery?

Long lasting. No, 1.5 volts is the same from battery to battery. Amperage will vary with the size of the battery however. The difference is lithium will last longer compared to the same size of other types of batteries.

Part 5. How long do 1.5V batteries last? The lifespan of a 1.5V battery depends on several factors: Type of Battery: Alkaline batteries typically last longer than rechargeable NiMH batteries when used in low-drain devices. Usage Patterns: Devices that require more power will drain the battery faster than those that use less energy. Storage Conditions: Batteries stored in ...
