

LiTime 12v 100ah mini lifepo4 lithium battery review

What is a litime 12V 100Ah TM LiFePO4 battery?

The LiTime 12V 100Ah TM LiFePO4 Battery is capable of delivering high discharge rates, making it suitable for a wide range of applications. Whether you need to power a trolling motor, an RV, or a solar panel system, this battery can handle it. It has a maximum continuous discharge rate of 100 amps, which is more than enough for most applications.

What is a litime 100Ah 12V mini?

Jesse has always had an interest in camping, technology, and the outdoors. Who knew that growing up in a small town in Sweden with endless forests and lakes would do that to you? The LiTime 100Ah 12V Mini is a new compact lithium (LiFePO4) battery. It's smaller and lighter than its predecessors, but just as capable.

Is litime a 12V 100Ah battery?

LiTime, formerly known as Ampere Time, has released a new battery it calls the 12V 100Ah Mini. Check Price on LiTime.com Also available on Amazon (click to view) While the specifications are very similar to their 12V 100Ah battery (one I reviewed a couple of months ago), the Mini is advertised as a more compact battery.

What is the most compact 100Ah LiFePO4 battery?

LiTime calls it Mini and advertises it as being the most compact 100Ah LiFePO4 battery on the market, and it is! It's quite impressive how compact it is, and it's hard to believe it's a 100Ah battery. The standard 100Ah 12V battery on the left, the new Mini on the right. Not only is the form factor compact, but it's also lightweight at 19 pounds.

How long does a 24V 100Ah lithium battery last?

Large power requirements call for a large battery, and that's where the 24V 100Ah LiFe PO4 Lithium Battery comes in. you'll have 3 ways to charge it, including generator, solar panels, and a LiFePO4 charger, promising a lifespan of more than 4000 cycles at 100% DOD.

Does the new litime mini perform as well as the previous battery?

LiTime asked me to do a review of the new Mini, so I have put it through the tests to see if it performs as well as their previous battery did. LiTime use the lithium iron phosphate (LiFePO4) cells, which are both very durable and safe to use.
