

As a leading solar energy technology company in the world, LONGi believes that photovoltaic technology is a powerful weapon to deal with climate change and plays a key role in achieving the 2030 sustainable development goals of the United Nations. LONGi is committed to becoming an advocate, practitioner and leader of global clean energy sustainable development, and ...

LONGi always stands at the forefront of solar photovoltaic technology, focusing on bringing better and sustainable value innovation to customers. Every time upgrade our technology, we lead the technological transformation of the photovoltaic industry and promote global energy transformation and green development.

We can provide optimal system configuration for multiple use cases by balancing between PV power generation and energy storage. Green Power and Carbon Emission Reduction In addition to being a green power generation asset, solar-plus-storage systems can ...

In the recent paper titled "Silicon heterojunction back contact solar cells by laser patterning", LONGi Green Energy Technology Co., Ltd. (referred to as "LONGi") reported for the first time that crystalline silicon solar cells have broken the 27% efficiency barrier, marking a significant advancement in photovoltaic (PV) technology. This milestone not only highlights the ...

Since 2015, LONGi is stating to deploy its operations in Yunnan of China, and Kuching in Malaysia to utilize rich local hydropower resources to produce clean energies. LONGi plans to integrate solar facilities with pumped storage in offshore areas featured with greater altitude differences and abundant sunlight.

The congress featured 25 AQM Award groups in three categories: PV Modules, Solar Energy Storage Systems, and PV Power Plants. Shanghai, China, September 3rd - The 10th All Quality Matters (AQM) Solar & ESS Congress, organized by the T&V Rheinland Group, took place in Shanghai on September 3, 2024.

Solar; Energy Storage; EV; Wind Energy; Event. Show Report; Show Schedule; HOME > News. ... and Xi'an Longi Leye Photovoltaic Technology Co., Ltd. (referred to as "Xi'an Longi Leye") to establish a joint venture company named Jinlong (Xi'an) New Energy Technology Co., Ltd. The registered capital of the joint venture is RMB 659 million ...

With large-scale deployment of Photovoltaic + Energy Storage, LONGi Solar believes it will realize the manufacturing goal of "Solar for Solar" (photovoltaic products ...

Recently, LONGi Green Energy Technology Co., Ltd. (hereinafter referred to as "LONGi") published a research paper titled "Perovskite-silicon tandem solar cells with bilayer interface

Photovoltaic energy storage longi

passivation" online in the journal Nature as the first corresponding author. The paper publicly reported the research results of breaking through the efficiency limit of single-junction ...

Dalian (China) 27th June -- From June 25th to 27th, the 15th Annual Meeting of the New Champions, also known as the Summer Davos, was held in Dalian, China. Premier Li Qiang attended the opening ceremony and delivered a speech. Xie Tian, General Manager of LONGi's Strategic Management Center, was invited to participate and share insights at the ...

At that event, Dennis She, Vice President of LONGi, emphasized LONGi's commitment in bringing energy equity to the world and especially to vulnerable communities because of climate events, through the development of photovoltaics (PV) or solar technology. He also expressed LONGi's ambitious determination to accelerate such progress through all ...

LONGi, the largest solar module manufacturer worldwide, has received EUPD Research's "Top Brand PV Seal 2022" in seven of the largest European markets and for Europe as a whole. ... EUPD Research specializes in the analysis of companies in a range of sectors including photovoltaics, energy storage, heat pumps, and e-mobility. ...

To make the best of solar energy to build a green world Persisting in Innovation and Value Creation LONGi leads the solar PV industry to new heights with product innovations and optimized LCOE with breakthrough monocrystalline technologies. LONGi is recognized as the world leading solar technology company with the highest market value.

Green Future. The sunshine travels 149 million kilometers and offers the planet infinite energy as a gift from nature to mankind. LONGi always focuses on the innovation and application of solar energy technology, sparing no effort to " Utilize Sunshine, Create a Green World" for mankind.

As an emerging solar energy utilization technology, solar redox batteries (SPRBs) combine the superior advantages of photoelectrochemical (PEC) devices and redox batteries and are considered as alternative candidates for large ...

Xi'an, China, 21st August, 2024 - On August 21, Fortune China officially released the 2024 Fortune Tech 50 list, and the world-leading solar technology company, LONGi Green Energy Technology Co., Ltd. (hereafter as "LONGi"), was selected for its outstanding performance in technological innovation, product development, and intelligent manufacturing.

China's Longi Green Energy has set a new world record for crystalline silicon solar module efficiency with its independently developed hybrid passivated back contact (HPBC) 2.0 module, achieving a conversion efficiency of 25.4%, according to a certification report from Germany's Fraunhofer Institute for Solar Energy Systems (Fraunhofer ISE).

With the rapid development of renewable energy, photovoltaic energy storage systems (PV-ESS) play an important role in improving energy efficiency, ensuring grid stability and promoting energy ...

LONGi PV Solutions . LONGi is a world leader in the clean energy transition. We provide a comprehensive suite of solar PV solutions that can optimize a wide range of project applications. ... LONGi Green Energy Technology Co., Ltd. (referred to as "LONGi") reported for the first time that crystalline silicon solar cells have broken the 27% ...

By optimizing the actual load demand, integrating power supply and grid resources, taking advanced technologies such as flexible energy storage and innovation of system and mechanism as the support, and regarding "safety, green and high efficiency" as targets, to innovate the power production and consumption mode, explore the development path for building a new ...

18th June, 2024 -- LONGi Solar is shipping the first commercial order globally of its new Hi-MO 9 solar module to France. LONGi France's customer will install 16MW capacity of modules in a large-scale, ground-mounted, French utility project. Delivering up to 24.43% efficiency, the Hi-MO 9 represents a groundbreaking performance for photovoltaic module technology.

2 0183; The China Photovoltaic Testing Centre (CPVT) has conducted outdoor empirical testing of LONGi's Hi-MO X6 "Guardian" (Anti-Dust Design) modules at its outdoor testing base ...

From pv magazine Global. Chinese solar module maker Longi has unveiled today its latest solar modules at a press event at the ATP Masters in Shanghai. The Hi-Mo X10 module series is based on Longi's proprietary 2nd generation hybrid passivated back contact (HPBC2.0) cell technology and has a power conversion efficiency of up to 24.8%. The modules ...

As an emerging solar energy utilization technology, solar redox batteries (SPRBs) combine the superior advantages of photoelectrochemical (PEC) devices and redox batteries and are considered as alternative ...

The cell achieved a certified power conversion efficiency of 26.06% with a thickness of 57 mm, with Germany's Institute for Solar Energy Research confirming the result. Skip to content ESS News

LONGi awarded the ISO 20400 Sustainable Procurement by SGS. Xi'an, China, 21th Agust,2024 -- The world-leading solar technology company, LONGi Green Energy Technology Co., Ltd. (hereafter as "LONGi"), is pleased to announce that the company has been awarded the ISO 20400 for Sustainable Procurement by SGS, marking

In 2020, China announced that it will strive to bring its carbon emissions to a peak before 2030 and become carbon-neutral before 2060. It noted that China will further transform its energy consumption structure by promoting the wider use of clean and renewable energy and build a New Energy-dominated Power System, as PV power playing an ...

Photovoltaic energy storage longi

At first glance, solar energy and tennis may seem unrelated, but there are several meaningful connections between the two. Local News . 2024.9.17. Advancing Energy Equity: LONGi Illuminates Global Commitments at 2023 Global Refugee Forum. GRF commenced in Geneva, Switzerland, bringing together 168 government delegations, including five heads of ...

With PV energy as the main power supply, an integrated complementary power supply system consisting of wind, hydro, thermal and other power sources is added to provide integrated solution of multi-energy complementary with wind, solar, thermal, hydro, energy storage and pumped-storage, and strive to achieve a more reliable, sustainable and stable supply of green power.

Solar photovoltaic modules Light storage inverter Continuous power load Energy storage system Intelligent parallell cage LONGi Cloud-platform mobile phone APP External grid Charging pile Home load All weather green power supply Reduce the cost of household energy Real-black components Efficient and reliable Systematic design and High-quality control
