

Port moresby energy storage station

What is Port Moresby power station?

The Port Moresby Power Station will provide reliable power to Port Moresby and is the lowest cost dedicated grid connected thermal generation in the country. Replacing heavy fuel oil and diesel, the gas-fired power plant also brings a material reduction in the environmental impact from power generation in PNG.

How many turbines does Port Moresby powerhouse have?

The powerhouse has four turbines with a total installed capacity of 50 MW. Once fully operative, the plant will provide electricity to about 40 per cent of homes and help PNG's Nation's Capital, Port Moresby, to meet its growing energy demands.

Will Port Moresby benefit from the Edevu hydropower plant?

Port Moresby, Central and NCD will benefit from it," PNG Hydro Development Ltd managing director Allan Guo said. The Edevu Hydropower Plant is an impressive medium-scale plant built on the mainstream of the Brown River in the Hiri Koiari district of the Central Province. The powerhouse has four turbines with a total installed capacity of 50 MW.

What is PNG Hydro Development Limited doing in Port Moresby?

The company PNG Hydro Development Limited has invested K650 million in the project which is one of Central Province's biggest assets that will supply electricity not only to Port Moresby but the whole Southern region in the near future.
