

Printable solar system mobile

What is a printable solar system mobile?

The Printable Solar System Mobile was specifically created to accommodate a large multi-age co-op class. While viewing a Solar System slideshow, our science co-op colored, cut, glued, and constructed a paper mobile. Though this mobile is not a typical mobile with moving pieces, it does feature hanging planets and two sides.

How do I make a printable solar system mobile?

As you can see from our finished mobile, the Printable Solar System Mobile isn't too difficult to create and doesn't require a crazy supply list. You will need crayons/colored pencils, scissors, glue, tape, and string of some kind. That's it! After printing, cut around both of your suns.

What is easy solar system mobile?

Easy Solar System Mobile is the perfect science project for kids of all ages to learn about how the planets move around the sun in our solar system. This simple science craft uses our solar system coloring pages as a planet template for kids to color and then transform into their own solar system model.

What is a solar system mobile?

While viewing a Solar System slideshow, our science co-op colored, cut, glued, and constructed a paper mobile. Though this mobile is not a typical mobile with moving pieces, it does feature hanging planets and two sides. The purpose of this mobile is to put the planets in order from closest to farthest away from the Sun.

How do you make a solar system mobile for kids?

Turn these planets and the sun into a solar system mobile for kids. Print two copies of the solar system coloring pages on white card stock. Using markers, crayons or colored pencils, color the sun and planets.

How do you use solar system coloring pages?

A great way to use solar system coloring pages is to create glow-in-the-dark ceiling art! This is easy, and kids love it. The key is coloring the page with glow-in-the-dark paint or markers rather than crayons.

Make a Solar System Mobile Draw a cross down the center of a round piece of cardboard. Then, using a compass, draw 8 circles, each bigger than the last. These will be the orbits of your planets. With a hole punch or a large nail, make holes in the middle of the cardboard for
