What are the best solar companies in Utah?

The following seven are the ones we believe are the best solar companies in Utah as a whole: SunPower is the best overall solar company in Utah, in our opinion, but ADT Solar and Blue Raven are also excellent choices. If you want to do business with a more Utah-centric company, check out Smart Wave Solar or ES Solar.

Does Utah have a solar industry?

Local reputation and reviews (20%): Given the increased interest in renewable energy sources, Utah has seen major growth in its local solar industry. Some companies intend to capitalize on this boom without focusing on customer service and quality.

What are the best Solar Lease companies in Utah?

Plus, SunPower guarantees the energy output from the system you lease, which is an additional protection that other companies don't always provide. Sunrun is another big name you'll likely come across when researching solar leases in Utah.

Are solar companies going out of business in Utah?

Solar has become increasingly popular in Utah over the past decade, and with an increase in demand has come a slew of new installers popping up to capitalize. Unfortunately, young solar companies are far more likely to go out of business, at which point your warranties will be voided.

Is Sunrun a good solar company in Utah?

Sunrun is another big name you'll likely come across when researching solar leases in Utah. Sunrun doesn't have a great reputation among customers or solar industry pros, so we don't recommend doing business with this company. What are the best solar companies for zero-down solar loans in Utah?

How many solar installers are there in Utah?

Utah is home to nearly 50 solar installers, all of which bring different things to the table. Finding the best one for you and your home can be time-consuming, but choosing one that suits your budget and meets your expectations will help guarantee a positive experience overall.
