

Solar panel price

The average cost of a residential solar panel system ranges from \$18,000 to \$43,000, depending on the system size, location, and available incentives. Typically, a 6-8 kW system--suitable for an average 2,000-square-foot home--will cost between ...

On average, solar panels cost \$8.77 per square foot of living space, after factoring in the 30% tax credit. However, the cost per square foot varies based on the size of the home. For example, the post-tax credit cost of solar panels for a 2,500-square-foot home is around \$20,000 for a rate of \$7.96 per square foot.

You'll probably save anywhere from \$28,000-\$120,000 over 25 years by going solar. Solar panels are just 12% of the total cost of a solar panel installation. Federal and state solar incentives significantly lower the cost of solar for most homeowners--the federal tax credit alone lowers it by 30%.

Currently, the average price of a solar panel system install in the U.S. is \$2.91/W. The best way to estimate how much a solar installation will cost you is with EnergySage's Solar Calculator . Our tool takes into account how much sunlight you'll get, local electricity rates, as well as any state and federal solar incentives like rebates ...
