

Solar panels government rebate

How does a solar PV rebate work?

For example, if your solar PV system was installed in 2022, installation costs totaled \$18,000, and your state government gave you a one-time rebate of \$1,000 for installing the system, your federal tax credit would be calculated as follows: $\$18,000 * 0.30 = \$5,400$

How does a utility rebate affect a solar tax credit?

When this is the case, the utility rebate for installing solar is subtracted from your system costs before you calculate your tax credit. For example, if your solar PV system installed in 2022 cost \$18,000, and your utility gave you a one-time rebate of \$1,000 for installing the system, your tax credit would be calculated as follows:

Are solar panels a tax credit?

This federal tax credit isn't new, but it was modified and extended by 2022's Inflation Reduction Act, bumping up its value to 30% of the cost of qualified improvements. If you're considering adding rooftop solar panels to your home, here are the details on how to claim this tax credit. [What Is the Tax Credit for Solar Panels?](#)

Is the federal solar tax credit back to 30%?

The federal solar tax credit is back to 30%, and there's never been a better time to install solar and start saving on energy costs. On August 16, 2022, President Biden signed the Inflation Reduction Act (IRA) of 2022 into law, immediately activating the Residential Clean Energy Credit for solar, battery storage, and more.

What is the Federal residential solar energy credit?

The federal residential solar energy credit is a tax credit that can be claimed on federal income taxes for a percentage of the cost of a solar PV system paid for by the taxpayer. (Other types of renewable energy are also eligible for similar credits but are beyond the scope of this guidance.)

Are solar PV systems eligible for a tax credit?

Solar PV systems installed in 2020 and 2021 are eligible for a 26% tax credit. In August 2022, Congress passed an extension of the ITC, raising it to 30% for the installation of which was between 2022-2032. (Systems installed on or before December 31, 2019 were also eligible for a 30% tax credit.)
