

# Solar power mason jar lights

The solar-powered mason jar lights transformed the garden into a magical, inviting space. The soft and warm white lights created a relaxing and enchanting atmosphere, perfect for evening gatherings and quiet nights. The aesthetic appeal of the lights became a highlight during garden parties and family events.

The Mlambert mason jar lights are entirely solar-powered. In the middle of each lid is a rectangular solar panel that keeps the internal battery charged. With a full battery, they'll shine for 10 to 12 hours - in summertime, that means they last all night. The exact charging rate will depend on how much sunlight your light is getting.
