How long does a portable power station last?

One cycle means using the product from fully charged to zero charge (or at least 80% in some cases). If you use your portable power station several times a week, it might only last a year or two. If you use it less frequently, it could last for much longer. What can you run on a portable power station?

How much power does a portable power station provide?

The amount of power a portable power station can provide is measured in watts. When shopping for a portable power station, it's important to consider the wattage you need to power your devices. For example, if you need to power a laptop and a smartphone, you may only need a portable power station with a few hundred watts of power.

What is a portable power station?

Portable power stations are basically large batteries in protective boxes, with AC outlets and other charging ports built in. They're generally much bigger, heavier, more powerful, and more rugged than power banks and portable laptop chargers.

How do I use a portable power station?

Using a portable power station is relatively simple, but there are a few key steps to follow to ensure it works properly and lasts for years to come. Charge the battery: Before using your portable power station, be sure to fully charge the battery. This will ensure that you have enough power to power your devices.

Should you buy a portable power station?

Portable power stations have enough bells and whistles to justify adding one to your everyday life as a backup in emergencies. They can also be an inexpensive stand-in for generators when you need to keep your necessities up and running during an emergency like a tornado or general outage.

What is the best portable power station for backup?

Anker Solix F1200 (1,229Wh): This unit was previously known as the PowerHouse 757 from Anker, and was also CNET's previous pick for "best portable power station for backup." Its UPS mode was one of the earlier units to boast "less than 20ms" switchover time in the event of a power outage. It's also currently \$500 off on Anker's site.
