

Tissot energy storage table

How does Tissot use energy?

Tissot uses the greenest of energy sources to power its iconic T-Touch collection: Expert Solar and Connect Solar. Tiny solar sensors located on the watch dial capture light that is stored in an accumulator. The energy needed to run the quartz usually comes from a battery, but here the energy comes from natural or artificial light.

Does Tissot use solar?

Tissot uses the greenest of energy sources to power its iconic T-Touch collection: Expert Solar and Connect Solar. Tiny solar sensors located on the watch dial capture light that is stored in an accumulator. The energy needed to run the quartz usually comes from a battery, but here the energy comes from natural or artificial light.

Is Tissot a good brand?

Tissot is the brand behind the Le Locle Powermatic 80, a classic dress watch that boasts an elegant guilloché dial and an impressive 80-hour power reserve. Tissot is known for creating high-quality timepieces that are both stylish and reliable, making them a popular choice among watch enthusiasts around the world.

What is a Tissot classic?

The Tissot Classic family consists of timeless designs for dressier settings-- and although they're separate collections, to be honest, the Classic, Carson, Le Locle and Tradition all kind of fill the same role. So, we're consolidating and highlighting a model from each of those to illustrate what's generally on offer.

Why should you choose Tissot?

These icons, both symbols of their era, have been resurrected for a new generation. For Tissot, timekeeping is an incredible commitment, provided by an experienced team of professionals who simply love the sport of cycling. Triumphs, setbacks, and unexpected twists are part of every race, of every competition.
