

What is ballard power systems

Who is Ballard Power Systems?

Ballard Power Systems Inc. is a developer and manufacturer of proton exchange membrane (PEM) fuel cell products for markets such as heavy-duty motive (consisting of bus and tram applications), portable power, material handling as well as engineering services. Ballard has designed and shipped over 400 MW of fuel cell products to date.

Does Ballard Power offer a fuel cell service?

*fields are required. Ballard Power is the leading global provider of innovative clean energy fuel cell solutions that offer superior performance at a reduced operating cost.

What does Ballard do?

Ballard is focused on applications where hydrogen fuel cells have a clear advantage and we are working on accelerating fuel cell technology adoption. Interested in our products or services? Our vision is to be the leading global provider of innovative fuel cell & clean energy solutions offering superior performance at a reduced operating cost.

How does Ballard Power Systems make money?

The primary revenue streams are drawn from the sales of power products for buses, trucks, rail, and marine sectors, alongside emerging markets like material handling and off-road equipment. The firm's strategic foothold in Europe through its subsidiary, Ballard Power Systems Europe A/S, amplifies its market reach and scale.

Who is Ballard fuel cell?

Over the years, Ballard has become a leader for PEM fuel cell technology, delivering products & services which have the Power to Change the World™. Learn more.

Where can I buy Ballard Power Systems stock?

Shares of BLDP stock can be purchased through any online brokerage account. Popular online brokerages with access to the U.S. stock market include Charles Schwab, E*TRADE, Fidelity, and Vanguard Brokerage Services. What other stocks do shareholders of Ballard Power Systems own?

Ballard's analysis and control of local environmental risks is based on ISO 14001 standards. In 2022, 40% of all Ballard sites are third-party certified to this standard. Future certification is planned for the remaining sites. ISO 45001: Ballard's occupational health and safety practices and controls of risk are based on ISO 45001 standards.

Proven Solutions for Passenger Cars. With the design tools and core technologies available at Ballard, we can tune each of the layers of the fuel cell stack for a given application to improve function, durability, life cycle

cost and power density.

4 days ago#0183; Ballard Power Systems Inc. engages in the design, development, manufacture, sale, and service of proton exchange membrane (PEM) fuel cell products. The company offers its products for power product comprising for bus, truck, rail, marine, stationary, and emerging market, such as material handling, off-road, and other applications. ...

2 days ago#0183; Ballard Power Systems, Inc. engages in the design, development, manufacture, sale, and service of fuel cell products. It focuses on power products for bus, truck, rail, marine, stationery, and ...

Historical daily share price chart and data for Ballard Power Systems since 1995 adjusted for splits and dividends. The latest closing stock price for Ballard Power Systems as of October 31, 2024 is 1.58.. The all-time high Ballard Power Systems stock closing price was 132.20 on March 02, 2000.; The Ballard Power Systems 52-week high stock price is 4.01, which is 153.8% ...

Analysts like Ballard Power Systems less than other "computer and technology" companies. The consensus rating for Ballard Power Systems is Reduce while the average consensus rating for "computer and technology" companies is Moderate Buy. Learn more on how BLDP compares to other companies.

Ballard Power Systems Inc. engages in the design, development, manufacture, sale, and service of proton exchange membrane (PEM) fuel cell products. The company offers its products for power product comprising for bus, truck, rail, marine, stationary, and emerging market, such as material handling, off-road, and other applications. ...

4 days ago#0183; Ballard Power Systems Inc. engages in the design, development, manufacture, sale, and service of proton exchange membrane (PEM) fuel cell products. The company offers its ...

Ballard Power Systems Inc., is a world leader in the development, manufacture, sale and servicing of hydrogen fuel cell power systems. Our products and services are used today in various markets, from heavy duty motive power to materials handling, backup power, marine and rail applications as well as support of other products required through our technology services ...

2 days ago#0183; Ballard Power Systems currently has an average brokerage recommendation (ABR) of 3.56 on a scale of 1 to 5 (Strong Buy to Strong Sell), calculated based on the actual recommendations (Buy, Hold ...

5 days ago#0183; Ballard's PEM fuel cell products create electrical energy from the combination of hydrogen and air. But, what is hydrogen, where does it come from, how available is it and where can I learn more about it? ... H 2 can be produced from renewable resources (e.g. wind, solar, and hydro-electric power) Efficient - H 2 fuel cell products are ...

What is ballard power systems

Caterpillar experts in advanced power technologies, controls and system integration are working alongside Microsoft experts in data center design and Ballard experts in fuel cell design, to demonstrate a 1.5 MW backup power delivery and control system that would meet or exceed the high expectations set by current diesel engine systems, while ...

About Ballard Power Systems. Ballard Power Systems" (NASDAQ: BLDP; TSX: BLDP) vision is to deliver fuel cell power for a sustainable planet. Ballard zero-emission PEM fuel cells are enabling electrification of mobility, including buses, commercial trucks, trains, marine vessels, and stationary power. To learn more about Ballard, please visit ...
